

SHADOW towel warmer/radiator

The CINIER Edo radiator is made with a 1-1/4" - 3cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on a powder coated metal frame to allow wall installation. The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a temperature of 95°-113°F/35 to 45°C in normal operation for a higher comfort and safety level with a maximum of 65°C/149°F when starting the unit.

These unique characteristics allow the CINIER radiator the most comfortable heating solution available to date. All electrical components used to make the electric version of the CINIER radiator are UL listed. The radiator is supplied with a remote control.

The Shadow radiator weighs 112 lbs-50 kg. Overall thickness: 3" to 3-1/4" - 75/80 mm.

Height 51-1/8" – 130 cm.

Width: 19-3/4" / 50 cm.

Standard configuration with 1 towel bar from Dornbracht.

It can be switched for 3 towel hooks.

Option of 2nd towel bar available.

Electric version, 120V for the US and Canada with 650 W-2220 Btu output in the 51"x 18" version.

Hydronic version with coil in solid copper embedded in the Olycal stone also available.

Customer can also provide his own towel bar, in such case they are installed at the time of fabrication.

Thermostat for electric version options:

1 /Thermostat mounted in the back of the radiator – right of left upon request.

2/ Thermostat wall mounted. Please refer to Honeywell product sheet.

Thermostat for hydronic version:

Oventrop Thermostat mounted in the back of the radiator, see Install instructions

Output: Elect 650W-2220Btu /Hydr 635 W-2168 Btu

Refer to chart of colors for other colors available.

5 years manufacturer's warranty.

Shadow Towel Warmer  
51-1/4" / 130 cm tall  
19-3/4" / 50 cm wide
